We had thought, upon receipt of MHA 10752, that the question of Subject's usefulness was fairly well settled, but we now see his name in paragraph 3-4 of MHA 11213 as a member of a chain from which we had thought him long since separated. Since it is contrary to our policy to permit a man to work in more than one project, we presume that his name slipped in by error, but would appreciate recurrence on this point.
